## Buckhorn 45" x 48" x 44" Collapsible Bulk Container (2 Doors)

The Buckhorn 45 x 48 x 44 solid bottom, extended-height collapsible bulk container is a heavy-duty container ideal for a variety of applications. Made from high-density polyethylene, the 45 x 48 footprint, 44 height collapsible bin can hold up to 2,000 lbs. per load. Its extended height makes handling, storing, and transporting tall and hard-to-fit components easy within a 45 x 48 footprint. The container is made with two drop doors, equipped with articulating hinges, that make it simple to access its contents. This container is stackable both upright and collapsed. 100% recyclable. Optional lid.

### Fully Articulating Hinges

Fully articulating hinges on access doors allow the doors to open fully and lay flat against the container sidewall.

### Solid Floor

A solid floor bottom ensures small parts will not be lost and provides a smooth and even load surface.

### Corner Drain Holes

Drain holes strategically placed in the interior corners of this solid bottom container keep liquids from pooling.

Dimensions		Capacity		Shipping		Features	
Exterior Height	44	Internal Volume ft <sup>3</sup>	39.5	53' Trailer Load	52	Drop Doors	2

Bulk Container Express® warrants its containers for proper fit, form and function for a period of one year from date of shipment by Bulk Container Express. If within such period a container is proven to be defective in functionality from manufacturing defects, such product shall be repaired or replaced. This warranty does not include damage due to normal material handling methods (i.e. forklift damage etc). Customer is responsible for all freight charges.
