

Macro 44" x 48" x 31" HybridBin Vented

The Macro 44" x 48" x 31" HybridBin has vented walls, making it ideal for the food processing industry. Made from FDA-approved premium, injection molded plastic and certified safe for use with food products. The walls are vented, which makes the bins light-weight, and have detachable posts that make assembly and stacking easy. The HybridBin is easily disassembled into smaller parts for easy transportation. These containers are easily stackable to maximize truck volume and warehouse space. These bins are ultra-light, weighing 66 lbs, but has a load capacity of 950 lbs. When it is empty the HybridBin is easily disassembled and nested improving storage efficiency and freight costs. They have pallet jack and 4-way forklift access for secure and efficient handling. Tan color.
